WITHIN 24 HRS

Your sign is Engraved & Shipped to you via USPS...

Each LED (Light Emitting Diode) is a long lasting, bright light that has over 20 different colors, shades & patterns that come with every LaserWorks LED Sign. The base is a dark brown but can be customer painted to suit your needs. Each sign can be used Indoor or Outdoors and is water resistant ! Please specify if used outdoors, we will exchange a small base for a large base at no charge, this will make the sign more stable in windy conditions.
